REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The claims have been amended as follows:

Cancel claims 10, 16, 21 and 24.

The amendment is necessary to obviate dependency problems originating from the cancellation of claims, and consistent with applicant's palpable intent to eliminate the redundancy created by the consolidation of claims.

The following is an examiner's statement of reasons for allowance:

Claim 4 recites the combination of a friction clutch comprising a clutch release device inside a transmission/clutch housing, a clutch release bearing, a hydraulic operating device, a cylinder housing, an operating piston, a bearing structure fastened to a wall of the internal combustion engine forming a face, a face, a bearing plate, and fastening struts. Of particular patentable significance is that the bearing structure is constructed independently of the transmission/clutch housing and that the fastening strut are oriented toward the wall, reach around an outside diameter of the friction clutch, are supported on the wall and are fastened to that wall by means of screws. The resulting combination is not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Saúl J. Rodríguez whose telephone number is (571) 272-7097. The examiner can normally be reached on M-F 9:30-6:00.
